A TERRIBLE COLLISION.

Great Less of Life in Gibraltar Bay. The British steamship Utopia, from Italian emigrants aboard, collided on Tuesday, March 17, with the British ironelad Anson, which was anchored in Gibraltar Bay, and sank in five minutes in seven fathoms of water. Many acts of thing was done that was possible to save the lives of the unfortunate emigrants. The latest accounts show that nearly 600 lives were lost, although it will be several days before a definite list of easualties can be made out, as bodics are constantly being recovered. It is one

of the most appalling disasters that has occurred for years. Ex-Gov. Robinson Dead. Ex-Gov. Lucius Robinson, of New York, died on Monday, March 23, at his home in Elmira, N. Y., of pacumonia. He had been ill but a few days, and was supposed to be convalescent,

but his malady took a turn for the worse, and Gov. Robinson was born at Windham, N. Y. Nov. 4, 1810, and held many positions of trust in his native State. He was elected State Comptroller on the Union ticket in 1861 by the enormous uniority of 160,000. He was elected Governor on the Democratic ticket in 1876, but was defeated on the same ticket for re-election

Over \$1,000,000 in Dividends Per Year. As a practical demonstration of the accumu lative values of lands situated in a growing city, and the claim justly made that the more loin that are sold the more there are (in value remaining, we quote from the statement of the heumatism relieved to oneminute by the cele- | Elyton Land Company of Birmingham, Ala., recently made by the President, Mr. H. M.

> "The Elyton Land Company was incorporated in 1870, with a cash capital of \$100,000, which was expended in land. The capital stock was then fixed at \$200,000. In the year 1883 a dividend of \$200,000, or 100 per cent, on the capital stock, was declared. Since that time dividends have been made as follows:

1884 95 per cent, 1885 45 " " 1886 . . . 310 " " 1887 . . . 2,205 " " 1888 . . . 100 " " amounting in the aggregate to \$5,570,000 paid in dividends on stock in six years upon an investment of \$100,000. The property now owned by the Company is worth probably

ago at \$1,000 a share. It sold in 1876 at \$17 a share." The city of Birmingham, Ala., was built on the land of this Company, who owned less than the Ga.-Ala. Investment & Development Co., whose advertisement appears on another page, now own at Taliapoosa, Ga., and these enermons values have been created by building on the properties a city of only about 25,000 in-

habitants as shown by the last census. As the Georgia-Alabama Investment & Development Co. own all their property entire without indebtedness, or deferred payments, the receipts from all sales of city lots must go at once to the surplus of the Company to increase the semi-annual dividends in addition to the earnings from its manufactory establishments. Every sale of city lots or property made, in-

stead of decreasing the assets of the Company,

increases them three-fold by reason of the improvement and development that must necessa-

rily follow, the benefits of which accrue to the remaining property owned by the Company, increasing very largely its desirability and selling value. A Scotch Boy's Idea. = [Dunder (Scotland) News.] A schoolboy, getting his lunch prepared for

QUICKLY DISSOLVED AND REMOVED WITH THE NEW SOLUTION # MODENE \$ Is compounded, an incomplete mixture was accidentally spilled on the back of the hand, and on wasning afterward it was discovered that the hair back of the hand, and on wasning afterward it was discovered that the hair was completely removed. We porchased the new discovery and named it MODENE. It is perfectly pure, free from all injurious softeness, and so simple any one can use it. It acts mildly but sorely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other steparation ever used for a like purpose, and no scientific discovery ever attained and wonderful results. IT CANNOT FAIL. If the growth he light, one application will remove it permanently; the heavy growth such as the heard or hair on moies may require two or more applications before all the roots are destroyed, although all the will be removed at each application, and without the slightest in urver or unplead and feeling WY20BW at each application, and without the slightest injury or unpleasant feeling when applied or ever afterward. - Hodene supercedes electrolysis.
